Dear Mr McKnight,

Proposed Guardianship Regulation

Thank you for your letter inviting comment on the proposed *Guardianship Regulation*.

It is important that people with disability and their representative organisations are actively involved in changes to policy, regulations and legislation that affect how they make decisions and exercise control over their lives.

The Disability Council does not have any significant concerns with the proposed Guardianship regulation and broadly supports the proposed changes as they will make the regulation simpler and clearer.

The Disability Council looks forward to giving further feedback and input into the ongoing process of review of the *Guardianship Act 1987*.

Yours sincerely,

Alastair McEwin
Chair, Disability Council NSW
